Gardening on Cape Cod

FOR nearly 60 years it has been our pleasant privilege to supply a substantial number of Cape Cod homes, both summer and year-'round, with whatever horticultural requirements they may have had, — from a packet of flower seed or a bag of fertilizer to a complete home grounds development, well designed and executed by our Landscape Service.

The value of more than half a century of practical experience and satisfying service has been amplified by increased equipment in materials and in trained personnel.

So again, in these troubled times we offer this simple listing of reliable hardy plants of every type. Gardening, ornamental gardening, is eternal. Its products mean even more to all of us in times of difficulty and stress. We are carrying on. We should like to help you, in every way we can.

Annual and Bedding Plants

THE bright colors, the all-summer bloom, and the picking value of annual flowers make them almost indispensable. We raise some seventy-five thousand of these plants in our greenhouses each spring, including the most popular and well-known sorts, and also several excellent kinds not commonly offered, such as cream yellow and pink Lantanas, true Heavenly Blue Morning Glory, three varieties of Blue Salvia, and new colors in Petunias, Zinnias and others. We try to have all our annuals in good husky condition, a majority of them pot-grown, ready from May 10th on, assuring the maximum of success and satisfaction.

Competent Landscape Service

ARE you one of those who limit the service of a "landscape man" to planting?

A competent landscape man can plan with you and for you how best to get maximum results in any given area, large or small, for reasonable expenditures within stated limits. His training and foresight can save duplication of effort and expense, and protect you against unwise expenditure.

We offer a complete landscape construction service, providing all labor, materials and experienced skill required for any landscape improvement work.

A competent landscape construction service specializes in grading, road construction, lawn making, tennis court building, all types of garden development, terraces, pools, plantings for every purpose, pruning, spraying, mulching and general maintenance.

Wise planning is essential in every successful improvement of the grounds. Whenever desired, thoughtful and suitable plans, adjusted to meet individual budget provisions, are prepared in our Landscape Offices, by men trained and experienced in good landscape architecture.

It is this type of complete landscape service which we offer. Together with our 40 acres of Cape Cod Nurseries, this service, backed by experienced knowledge of soil and climate requirements, is worthy of your confidence.

CULTIVATED HYBRID BLUEBERRIES

Used more widely every year, and deservedly so, because of their great productivity of large sweet fruits. The naturally acid soils of southeastern Massachusetts are particularly favorable for these Blueberries.

We offer the three varieties proven most satisfactory in this section, all Cape-grown:

Cabot. The earliest to ripen.

Pioneer. Later sort, more spreading growth.

Rubel. The best all-purpose variety.
